

Invitation

Innovating Justice Boostcamp The Hague

HiiL is delighted to invite you to the Innovating Justice Boostcamp taking place in the Hague on the 26th of September 2017! This is one of our seven global semi-finals taking place in Kampala, Accra, Nairobi, Tunis, Johannesburg and Kyiv. The event will highlight 10 of this year's semi-finalists from the HiiL Innovating Justice Challenge, coming from the UK, USA, Lebanon, Tunisia and the Netherlands.

These justice start-ups were carefully selected from more than 600 candidates from all over the Globe. During the Boostcamp, the entrepreneurs will pitch their justice innovation, after which the best innovation will be selected by a jury that consists of director-general Justice and Law Enforcement Anita Vegter, founder of Legal Tech Studio ARAG Richard Faas, founder of the Hague Tech Brian Gharibaan and representative of municipality of the Hague Mariken Gaanderse. The best innovation, decided by the jury, will receive 5000 EUR and enter the HiiL Justice Accelerator's acceleration track.

This year our the Hague Boostcamp will be part of the [Impact Startup Fest](#), a festival that focuses entirely on impact startups and scaleups that are working on innovations that make the world a better place. Besides the chance to discover and meet some of the world's most innovative justice entrepreneurs, you will also have the opportunity to visit the Impact Startup Fest. Besides our Boostcamp we will also host a Peace, Justice and Security meetup together [World Startup Factory](#), [the Ministry of Security and Justice](#), [Centre for Innovation](#) and [WTHX](#).

Please visit [this page](#) or [our website](#) for updates about the event! More information about HiiL's Accelerator programme and other Boostcamps can also be found on our website.

Questions about tickets and the event can also be addressed to innovatingjusticeforum@hiil.org.

We look forward to seeing you at the Innovating Justice Boostcamp in the Hague!

Our partners

Building strong partnerships is a key value of Hiil. Our partners help us to find the best innovations and accelerate their impact. They provide seed-investments, in-kind services, and connect the best innovations with strong international networks. The Innovating Justice Challenge is a collaboration between Hiil, the Ford Foundation, The City of The Hague, The Dutch Ministry of Foreign Affairs, and the World Economic Forum.
